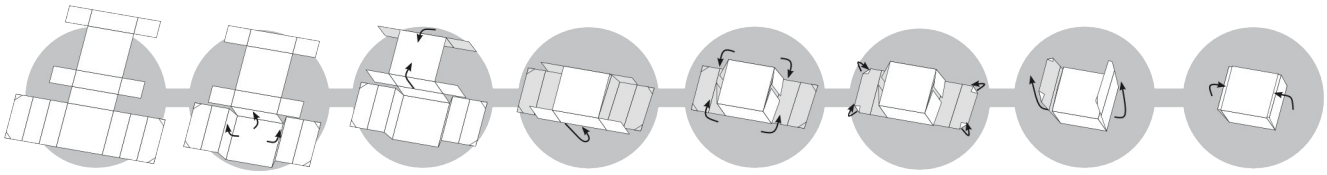
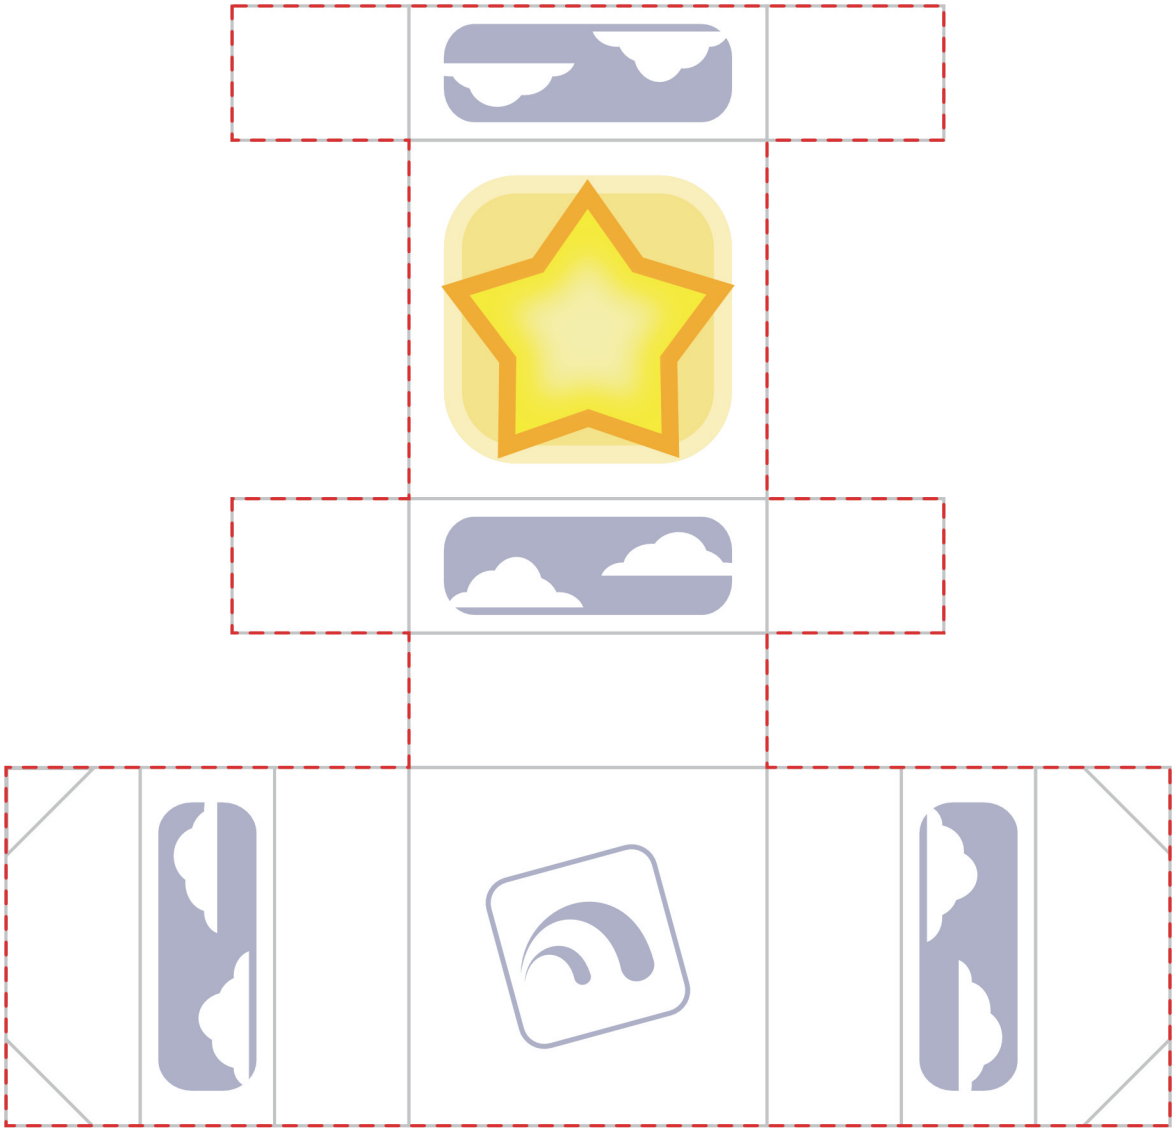
studios
about this game

This is a file designed to demonstrate the cutting and folding required to produce Oca's bronze games. All artwork and folding instructions are released under Public Domain. For more information visit: www.ocastudios.com/rights.

Printing instructions:
- don't print pages 1 and 2,
- print on both sides of the paper (even pages are the backs of odd pages).

blocks




these pieces were developed to be used as tiles or pads, supporting other pieces, and are quite sturdy. When including them in a game, consider creating blocks of different sizes so they can fit inside one another.
