

studios
about this game

This is a file designed to demonstrate the cutting and folding required to produce Oca's bronze games. All artwork and folding instructions are released under Public Domain. For more information visit: www.ocastudios.com/rights.

Printing instructions:

- don't print pages 1 and 2,
- print on both sides of the paper (even pages are the backs of odd pages).

rigid pins

This is a more complex folding pattern that can be used as a counter which alternates value (place it laying down, so only one image is show), but can also be used standing, as a sturdy pin.
